

To
The Commission Secretary,
Telangana Electricity Regulatory Commission,
Vidyuth Niyamtran Bhavan, G.T.S Colony,
Kalyan Nagar, Hyderabad – 500045

Sub: Request for extension of time for submission of objections in respect of TGDISCOM petition seeking revision of pre-fixed levelized tariff from Rs. 3.13/kWh to Rs. 2.98/kWh.

Ref: 1. NOTICE I.A.No. 4 in O.P. No. 24 of 2020

2. PPA Nos: 413/2025-26, 414/2025-26, 416/2025-26 and 416/2025-26 Dt 19/07/2025.

Respected Sir

With reference to the subject cited above, we have received the notice issued by the Hon'ble Commission inviting objections to the petition filed by TGDISCOM for reducing the pre-fixed levelized tariff determined by the Hon'ble Commission from Rs. 3.13/kWh to Rs. 2.98/kWh.

In this regard, we respectfully submit that we have entered into the above-referred Power Purchase Agreements (PPAs) with TGSPDCL for the implementation of 6 MW solar power projects at Rajoli, Telangana.

We wish to bring to the kind notice of the Hon'ble Commission that there were considerable delays in the issuance of the Letter of Award (LOA) and execution of the PPAs. Further, significant delays were encountered in obtaining approvals from various authorities, including TGSPDCL, TGREDCO and other statutory agencies, during the implementation of the projects. In addition, there has been a substantial escalation in the cost of labour, equipment and other project inputs, which has materially increased the overall project cost.

We are in process of collecting the required documents and information to submit our detailed objections to the Hon'ble Commission. This process will take another two to three weeks.

We therefore request the Hon'ble Commission to kindly extend the time for submission of our objections up to **15th July 2026**. We also request that the hearing in this matter may be scheduled on or after **25th July 2026**.

We shall be grateful for your kind consideration.

Thanking You

Yours faithfully,

Pemmasani Narasimha Rao
