

Record of Proceedings for 16.12.2014

M/s Shalivahana (MSW) Green Energy Limited vs Nil (as shown by petitioner)
TSNPDCL (added by the Commission)

Petition filed for determination of the tariff for the 12 MW MSW project. Coming up
for first time after notice to TSNPDCL

Sri.M Komariah CMD and Sri.E Satvik Manager (Projects) representatives for the petitioner and Sri. P Shiva Rao counsel for the respondent are present. The petitioner's representatives stated that they are in the process of entering into a power purchase agreement with TSNPDCL. They had earlier made submissions in the public hearing and now want an order to be passed on generic tariff. There are two other projects also on similar lines. Initially they filed the petition seeking tariff specific to the project.

The Commission observed that the petition will be considered only after undertaking a public hearing and deciding the generic tariff. The earlier submissions made are not relevant and appropriate as this commission was not existing and therefore not privy to the submissions. The same have to heard afresh. No tariff determination can be made for the specific project unless a PPA is submitted for consent of the Commission and consented by the Commission. For undertaking the exercise of public hearing separate exercise may be initiated by the office for hearing all the stake holders in the matter of generic tariff which needs public hearing process that is a separate exercise to be undertaken by Commission.
