

Southern Power Distribution Company of Telangana Limited
#6-1-50, Corporate Office, Mint Compound, Hyderabad 500 063

From
Chief Engineer (IPC),
TGSPDCL, Corporate Office,
6-1-50, 1st Floor, Mint Compound,
Hyderabad – 500 004.

To
The Commission Secretary,
TGERC, Sy No. 145-P,
Vidyut Niyantran Bhavan,
Kalyan Nagar, G.T.S Colony,
Hyderabad 500 045.

Lr.No.CE(IPC)/DE(IPC)/ADE-K/F.PM KUSUM/D.No.1915/24-25,Dt:02.04.2025

Sir,

Sub:- TGSPDCL - IPC Wing – TGSPDCL (On behalf of TGDISCOMs) proposal seeking consent for draft Expression of Interest (EOI), Model Power Purchase Agreement (PPA) & Model Lease Agreement for procurement of 4000 MW (inclusive of 1000 MW capacity for Women SHGs under INDIRA MAHILA SHAKTI SCHEME) decentralized Ground Mounted Grid- Connected solar power for a period of 25 years from the Commercial Operation Date (COD) by TGDISCOMs under Component-A of PM KUSUM Scheme - Additional Information Sought for – Submission - Regarding.

Ref:- Lr.No.Secy/E/F.No.E-263300/D.No.199/24-25,Dt:22/03/2025.

With reference to the subject cited above, a petition was filed by TGDISCOMs seeking consent for draft EOI, model PPA & Model Lease Agreement for procurement of 4000 MW (inclusive of 1000 MW capacity for Women SHGs under INDIRA MAHILA SHAKTI SCHEME) decentralized ground mounted Grid-Connected solar power for a period of 25 years from the COD under PM KUSUM Scheme Component-A.

The Hon'ble Commission vide reference cited above, has sought additional information regarding substation wise capacity injection under PM KUSUM and justification for deviations of draft PPA from MNRE model PPA.

In view of the above, the justifications and substation wise capacities list is herewith enclosed to accord approval to the draft Expression of Interest (EOI), Model Power Purchase Agreement (PPA) & Model Lease Agreement of the aforesaid procurement.

Further, it is submitted that the solar capacity to the extent as approved by the MNRE will be procured under PM KUSUM scheme.

Encl: As stated.

Yours faithfully,

V. Prabhakar

Chief Engineer (IPC)

Additional Information sought for Procurement of 4000 MW
(inclusive of 1000 MW capacity for Women SHGs under INDIRA
MAHILA SHAKTI SCHEME)

1. The substations with capacities identified for injection of solar power is enclosed in **Annexure-1**.
2. Justifications of TGDISCOMs for the deviations identified in the draft PPA from the MNRE model PPA, are as outlined below:

SI. No	CLAUSE	MNRE Model PPA	TGDISCOMs' Draft PPA	Justification for PPA Amendment
1	Performance Bank Guarantee (PBG) -3.1	Rs. 1 Lakh/MW converted into PBG after PPA signing.	Rs. 5 Lakh/MW to be submitted within 10 days of LOA issuance	This clause has been added to align with the Standard PPA of MNRE Cl. 4.5, which stipulates that the total Performance Bank Guarantee (PBG) shall be encashed on per day basis and proportionate to the balance capacity not commissioned. Further as per the Telangana Clean and Green Energy Policy, 2025 issued by the Government of Telangana Vide GO Ms No 2 dated 11.01.2025, the PBG value to be collected from the Solar power developers is fixed as 5 Lakh per MW. The Hon'ble Commission may take appropriate decision.
2	Additional Points appended to (4.1) RPG Obligations	Not included	• Installation of RMS as per PM KUSUM Scheme Guidelines • Responsibility of payment of all taxes • Deploy only commercially viable technologies • Compliance to technical specifications	The points have been incorporated to provide more clarity on the Obligations of SPG. And also to avoid utilization of sub standard panels
3	Appended to Clause 4.2	Not included	Provided that the SPG shall not sell solar power to any other buyer or is not allowed to go for open access.	As this is standard clause of Power Purchase agreement; once SPG Signs PPA with DISCOM, he is not allowed to sell power to any third party under open access. The clause

				is incorporated to give more clarity.
4	New para added (4.3.2)	Not included	The solar power generator shall ensure during the first 10 years of COD minimum declared CUF of ___ % of the project with maximum allowable excess generation of +10 % Energy over minimum declared CUF of ___ % and while from 11th year, the SPG will be allowed to generate ± 10 % for declared CUF of ___% for the remaining period of the agreement.	To encourage RPGs for efficient operation, it is proposed to allow 10% excess generation will be purchased at PPA Tariff. As there is general tendency of decrease in the panel efficiency over the years and to have flexibility in generation it is proposed to have lower and upper limits over the specified % CUF.
5	Appended to Clause 4.3.4	Not included	• In case of shortfall of energy clause • In case of excess energy clause • In case of any off-take constraints due to Back down by SLDC and Grid unavailability clause	Short fall energy clause- this is clause as per the MNRE PPA. Excess energy Injection: Added for the more clarity, in continuation to the clause 4.3.2 over and above the specified limit. As this proposed solar power plant interconnection at 11 KV level, to address the issues related to Grid unavailability/off-take constraints for evacuation of power by SPG etc. these clause incorporated. Further the clauses are incorporated to prevent excess generation by the SPG willfully by adding extra panels over and above the approved capacity.
6	Delay in Commissioning & Liquidated Damages (4.5.1)	PBG forfeited if project delayed beyond 6 months	Delay up to two months from SCOD: - The PBG will be encashed for recovering liquidated damages of Rs. 8,333/MW/Day and proportionate to the capacity not commissioned (Total liquidated damages will be limited to the amount of PBG). commissioning time: 11 months from LOA.	PM KUSUM guidelines this Scheme closes by March, 2026. In view of this time constraints, it is proposed Scheduled commissioning Date : 9 months from LOA Delay commissioning allowed upto 11 months from LOA. The per day liquidated

				damages is arrived at by taking into account the value of PBG proposed to be collected from the SPG as per the clause 3.1 of the Draft Model PPA of TGDISCOMs.
7	Clause 4.9: Generation constraint for off-take constraint 4.9.1 and 4.9.2	Included	Deleted	As this proposed plants will be connected at 11 KV level, there is no possibility of off take constraints in transmission voltage level. To address these issues this clause deleted.
8	Commissioning Deadline including encashment of PBG (4.5.2)	21 months	11 months	PM KUSUM guidelines this Scheme closes by March, 2026. In view of this time constraints, it is Proposed Scheduled commissioning Date : 9 months from LOA Delay commissioning allowed upto 11 months from LOA (PBG will be forfeited)
9	New para appended to Article 5 (5.1)	Not included	The SPG is solely responsible for obtaining approvals, designing, installing, operating, and maintaining interconnection facilities at its cost, coordinating with DISCOM for estimates, supervision charges, and maintenance, and must hand over the facilities to the licensee if the agreement is not extended or the project is shut, while any modifications in interconnection procedures remain under DISCOM's authority.	In continuation to clause 4.1.1 (a) of MNRE Model solar PPA, SPG solely responsible for connectivity with the 33/11 KV Substation.. This clause incorporated for providing more clarity on SPG responsibilities, Interconnection Facilities and in accordance with existing Solar PPAs made with SPDs.
10	New para appended to Article 5 (5.8, 5.9, 5.10, 5.11)	Not included	If the SPG commissions the plant beyond 9 months but within 11 months from the PPA signing date, it must pay liquidated damages to TGDISCOM as per Article 4.5, while also ensuring project operation, metering, and connectivity as per the agreement and CEA	Delay commissioning allowed upto 11 months from LOA Also added for more clarity to SPG that all solar plants are installed as per CEA Regulations and other standards in force from time to time.

			regulations, and using components that meet IEC, BIS, or MNRE technical standards under the PM KUSUM Scheme.	
11	Commissioning Period (5.7)	15 months from date of signing of PPA.	9 months from date of signing of PPA.	PM KUSUM guidelines this Scheme closes by March, 2026. Accordingly it is proposed that the commissioning period is 9 months from date of LOA so as to complete the project execution by Dec-2025.
12	Metering & Interconnection (Article-7)	Metering and interconnection at 11kV/33kV , with SPG bearing costs.	• Metering at 11kV side of 33/11kV substation, • SPG shall install 3 ABT meters (Main, Check, Standby) & RMS facility and SPG must bear all interconnection cost • Measurement of Energy Clause included	The Additional points have been incorporated as per the existing PPAs made with SPDs and as per the CEA Metering Regulations for providing more clarity to the SPGs.
13	8.1.2 and 8.1.3 Appended to Clause 8.1.1	Not included	1. SPG shall take insurance covering third party liability covering loss of Human life, Engineers and workmen and also covering risk of damage/theft of material. 2. SPG shall take insurance of workers before commercial operation of the project	It is incorporated in the interest of the safety of SPG and workforce.
14	New Clause- Article : 10	Not included	1. CDM benefits: 50 % Share to DISCOM 2. RECs: Will be claimed by DISCOM 3. Harmonics: Injections shall conform to CEA/CERC and TGERC regulations 4. Auxilary consumption (Provided that where the consumption drawn from the DISCOM is over and above the auxiliary consumption limit, such excess consumption shall be billed on KVAh basis at the applicable tariff of HT-1 category consumers as notified by the TGERC for the relevant financial year.	(1,2,3). It is incorporated as per the existing PPAs. (4). The clause will be amended subject to the outcome of petition vide OP. No. 33/2024.

			Provided further that during the plant shut down or non-generation periods, the energy drawn from the DISCOM for the essential loads shall be billed on KVAh basis at the applicable tariff of HT-1 category as notified by the TGERC for the relevant financial year)	
15	New Clause (18.13)	Not included	Labour Clause included	It is incorporated to address issues arising out of enforcement of Labour laws.

V. P. 
Chief Engineer / ERC
TASPDCL

S.No.	DISCOM	District	Circle	Division	Section	Name of 33/11KV Substation	Total PTR Capacity in MVA	Already connected solar capacity to the SS in MW	60% PTR Capacity in MW	Feasible Capacity considering 60% of Total PTR Capacity for Solar power injection under Component A of PM Kusum scheme duly deducting the existing solar capacity
